*It's a special honor for me to be invited and I am beyond grateful for the opportunity to make my motherland proud!*

—Dr. Quimby (personal communication, 2020)

A keystone of the journal's growth and reputation is uniting the best specialists from all around the world within the Editorial Board (EB). As we know, not only the highly experienced surgeons are invited to the EB but also those who simultaneously accelerate the academic progress and show a discernible publication history in the Web of Science.

Anastasiya Quimby, DDS, MD is a Director, Head and Neck Microvascular Reconstructive Surgery Program and Assistant Professor, Department of Oral and Maxillofacial Surgery, NOVA Southeastern University, Fort Lauderdale, Florida, United States. Dr. Quimby's (Fig 1) scholar portfolio is so impressive: book chapter<sup>1</sup> and a lot of peer-reviewed works related with cutting-edge reconstructive techniques<sup>2-5</sup>.

Thanks to the Dr. Quimby's inspiring support the number of EB members who move reconstructive surgery forward increased to 6 opinion surgeons: Drs. Antonyshyn, Bunnell, Fernandes, Hanna, Massarelli, and Quimby.

We are enormously honored to be with Dr. Quimby in one team and hope to make our collaboration with her as comfortable and productive as possible.
